WHY CHOOSE REGENCY?

At Regency, our past 40 years have been focused on providing a high level of service while building high-quality and reliable products that our customers can enjoy for years to come.

**HIGH-QUALITY**

Producing a high-quality product has been at the very heart of what we do from when that very first stove rolled off the production line over 40 years ago to today. We are ever-focused on producing quality products for our customers that will last for years to come.

**BEST WARRANTY**

A fireplace should be reliable and should work right the first time it is used, and the 1,000th. A core part of our business is making sure that we are building long-lasting, durable, high-quality products; we back-up that commitment with the industry’s best warranty on all our products.

**COST-EFFICIENT**

Enjoy the outdoors longer. Controllable zone heating allows you to extend your patio season earlier in the spring and later into the fall. Enjoy your patio all night long with Regency’s outdoor gas fireplaces.

Why Regency? Because it’s more than a fireplace!
